Logo

## Logo

The SkyClinic Logo is a signet consisting of two rhombuses with three lines in between. SkyClinic Logo must be used with the Claim „Beginning of Beauty“. The logo must not be used without the Claim.

The SkyClinic Logo is designed in two versions. The basic version is the vertical one.

The SkyClinic Logo must not be redesigned in any way. It must not be distorted or modified, and it must always be shown as a whole and never reproduced in parts.

The following pages define the details of using the SkyClinic Logo, including color specifications, spacing and size requirements.

### ATTENTION!

On continuous text you should use only SkyClinic or SKYCLINIC form.

**NOT** Sky Clinic, SKY CLINIC or skyclinic.

vertical version

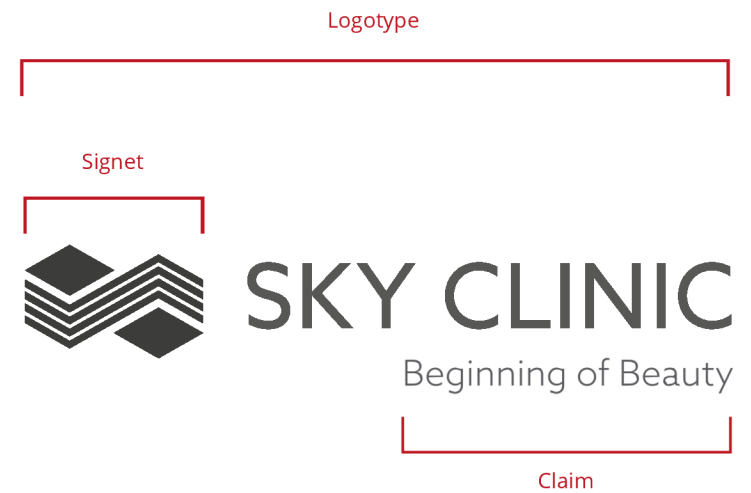

horizonatal version

## Logo structure

SkyClinic Logo must be used with the Claim „Beginning of Beauty“. You must not use the Logo without the Claim.

## Spacing of elements

The spacing within the SkyClinic Logo results from the structure and dimensions of all the elements.

The spacing is marked with letters X, Y, Z, showing the exact dimensions. Spacing must not be modified.

## Claim

SkyClinic Logo must be used with the Claim „Beginning of Beauty“. You must not use the Logo without the Claim.

### ATTENTION!

You can use Hair Transplant Claim ONLY in special cases with the written permission of the CEO of the SkyClinic Group.

## Logo placement

In order for the SkyClinic Logo to be clearly legible in the context of surrounding graphics and information, the spacing rules must be followed.

No graphic element which is not a part of the SkyClinic Logo may be placed in the area “x” surrounding it. This area, also called the “area of isolation,” is derived by using the SkyClinic Logo’s lowercase letter height “x” as a unit of measurement.

The grid surrounding the SkyClinic Logo helps to visualize the distance and spacing protecting it in a layout for print or digital media.

## Acceptable Logo Usage

The following are examples of acceptable Logo usage in conjunction with color fields and photographic imagery. These are the only acceptable colors and variations unless otherwise specified in this manual.

Corporate colors on white

Reversed white corporate black

Reversed light gray corporate dark gray

Reversed white corporate yellow

Reversed light gray corporate blue

Reversed white corporate violet

## Unacceptable Logo Usage

This page illustrates a series of changes to the Logo which are not allowed in any way.

Logo must not be distorted, and shadow cannot be applied. Its shape must always be maintained and the ratio between elements must not be modified.

This includes digital channels such as Twitter and Facebook feeds.

Do not Apply the logo on photos or modify its shape.

Do not Apply logo on different background colors or gradients

Do not use shadows

## Primary Typeface

The primary typeface chosen to convey the SkyClinic identity is Azo Sans, which is the preferred typeface on all SkyClinic materials.

To create a clean, cohesive appearance, the use of no more than two or three different typeface families in a document is recommended. This includes design elements such as callouts and photo captions.

This primary typeface is available in three weights: light, regular, semibold and bold. For every weight an italic version is also available.

The basic colour of typeface on materials is Dark Grey from corporate palette of colours.

### Azo Sans Light

ABCDEFGHIJKLMNOPQRSTUVWXYZ  
abcdefghijklmnopqrstuvwxyz  
1234567890!@#\$\$%^&\*()

### Azo Sans Regular

ABCDEFGHIJKLMNOPQRSTUVWXYZ  
abcdefghijklmnopqrstuvwxyz  
1234567890!@#\$\$%^&\*()

### Azo Sans SemiBold

ABCDEFGHIJKLMNOPQRSTUVWXYZ  
abcdefghijklmnopqrstuvwxyz  
1234567890!@#\$\$%^&\*()

### Azo Sans Bold

**ABCDEFGHIJKLMNOPQRSTUVWXYZ**  
**abcdefghijklmnopqrstuvwxyz**  
**1234567890!@#\$\$%^&\*()**

## Secondary Typeface

Azo Sans is the preferred typeface on all SkyClinic materials. When Azo Sans is not available, the secondary typeface chosen to convey the SkyClinic identity is the typeface Montserrat.

It is advisable to use this font in online and electronic media. This font has been chosen as a secondary typeface because it is clearly legible, both on printed and digital materials, and because it is a default font available on google fonts.

The basic colour of typeface on materials is Dark Grey from corporate palette of colours.

### Montserrat Regular

ABCDEFGHIJKLMNOPQRSTUVWXYZ  
abcdefghijklmnopqrstuvwxyz  
1234567890!@#\$%^&\*()

### Montserrat Medium

1234567890!@#\$%^&\*()

### Montserrat Bold

ABCDEFGHIJKLMNOPQRSTUVWXYZ  
abcdefghijklmnopqrstuvwxyz  
1234567890!@#\$%^&\*()

# Primary Colours

The Sky Clinic Logo consists of a specific set of colors, shades of grey.

The noted colors should be used for the logo at all times.

The SkyClinic Logo is typically used over a white background.

# Clinic Identity

## Outdoor Identity

In outdoor identity we use two kinds of signs. Coffers and signboards are made on metallic dibond with light gray logo.

Logo has lighting under logo elements.

## Windows Identity

On windows we can use frosted glass foil with logo.  
The underside must be minimum 170 cm from the floor.

In case when more than one window is needed, we prefer to design a sequences of logos where you use only SkyClinic logo without the signet in the middle of two SkyClinic full Logotypes.

minimum 170 cm

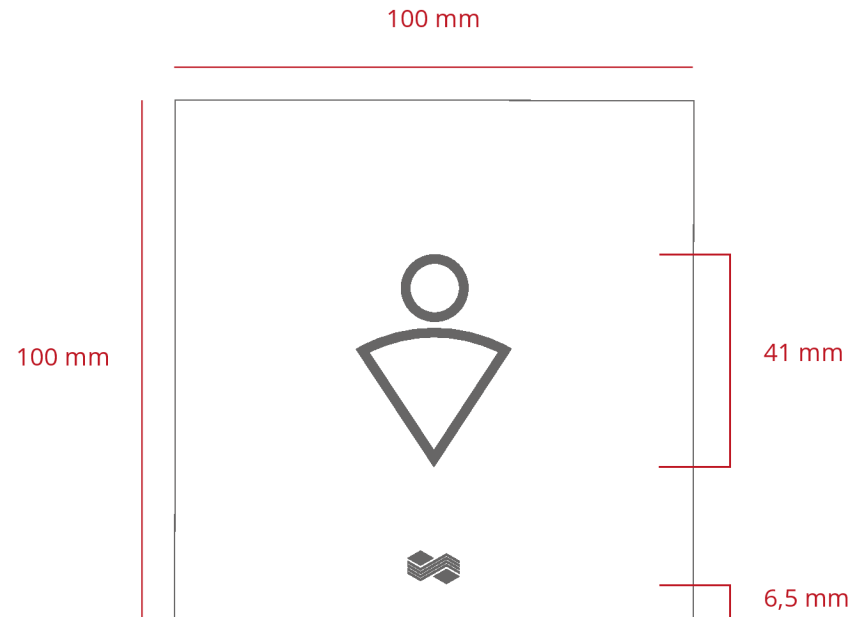

## Information plates

For ordinary rooms and toilettes SkyClinic uses numbers and symbols.

**Size:** 100 mm x 100 mm

**Material:** Brushed dibond + engraver

### NUMBERS AND PICTOGRAMS

1 2 3 4 5 6 7

## Information plates

For special rooms like patients' cloakroom, staff room or other places where clients should or should not be, SkyClinic uses plates with inscriptions.

**Size:** 150 mm x 100 mm

**Material:** Brushed dibond + engraver

## Armchairs

On the armchairs the horizontal SkyClinic Logo option should be embroidered in gray colour.

## Questionnaire

All Questionnaires should have SkyClinic footer.

**Size:** A4

**Typeface:** Azo Sans or Montserrat

**Typeface Colour:** Dark Gray

**min. size Typeface:** 6 pt

**max. size Typeface:** 12 pt

**Outlined elements:** SkyClinic Blue

### ATTENTION!

Your footer must include your local clinic website address and the address of [www.skyclinicgroup.com](http://www.skyclinicgroup.com)
